RE: Steel Framing Price Increase Announcement

Effective April 1, 2010 ClarkWestern™ Building Systems will be increasing pricing on all steel framing products and accessories by 10%.

Raw material prices, such as iron ore, continue to increase month-on-month, while imports and service center inventories remain at or near historic low levels. The steel mills have announced price increases for consecutive months since January of this year and the trend continues into April and May. We anticipate this trend to continue and further price increases are very likely. Steel Mill increase letters are available upon request.

Escalators will continue to reflect mill forecasts to achieve a fair value for our products.

ClarkWestern will honor all job quotations in accordance with our job quotation policy. A copy of which is posted on our website at:

If you have any questions please do not hesitate to contact your ClarkWestern Account Representative.

Thank you for your business and continued support of ClarkWestern Building Systems.

Sincerely,

Todd Fischer
VP of Sales and Marketing
