

HAULS HEAVY, HOLDS STEADY

The **Load Lock Pro™** brings innovation to the drywall & material distribution space for the first time in decades. The **Drywall Retention Bar** and **Load Latch** work together to lock material in place and prevent it from sliding during transport, while the **Lateral Reinforcement Arms** reduce tipping and prevent injury.

Large Load Capacity

Carries up to (16) 1/2 in. drywall sheets at once

Reduced Tipping Risk

Provides over 150% improvement to front tipping, the most commonly observed failure in current carts

SPECS

Capacity	2,000 lbs
Length	40 in.
Width	16 3/4 in.
Total Height	48 in.
Weight	85 lbs

*The safety bar is 2 1/2 in. above the standard cart when locked in.

FEATURES

Secure Transport

Load Latch & Drywall Retention Safety Bar secure material in place during transport

Lateral Reinforcement Arms with Casters

Helps prevent tipping by offering additional front and rear support

Large Rubber Casters

For smooth transport

Heavy-Duty Steel Construction

Perfect for all job site environments

Made in the U.S.A.

Quality standards you can trust
