September 2nd, 2026

To Our Valued Customers:

OEG Building Materials will implement a price increase on all products effective October 1st, 2026. This includes all interior & exterior framing, strut, and metal decking products.

Domestic mills have announced another round of price increases and surcharges for October shipments, continuing the steady rise in steel costs we have seen throughout 2026. As with our previous adjustments, this increase reflects those higher input costs and is necessary to maintain the inventory levels and service you rely on.

OEG will honor all unexpired quotes in accordance with our quote policy. Expiration dates can be found on all quotes. Orders not covered by a quote will be invoiced at the pricing in effect on the ship date.

Updated price lists will be distributed prior to the effective date. If you have any questions regarding the price increase, please contact your OEG Building Materials sales representative.

Thank you for your business and continued support.
